

# The Lehi Department

## A Wilson Club

### Enthusiastically Launched

Addresses Made By Hon. James H. Moyle and Provo Visitors.

An enthusiastic bunch of young people gathered at the Commercial club Wednesday evening to organize a Woodrow Wilson club, and listened to an address by Hon. James H. Moyle, the Democratic-Progressive candidate for United States Senator. Ernest Madison presided at the meeting and was elected chairman of the club. The other officers were: F. A. Child, Vice President; Miss Ivey Thomas, Secretary-Treasurer; Executive Committee, Joseph Anderson, Mrs. F. A. Child, Elmer Peterson, Karl Thomson and Miss Ida Thurman. W. E. Evans, Ernest Madison and F. A. Child were elected a committee on constitution and by-laws, to report at a future meeting.

Besides Mr. Moyle, there were also present Earl J. Glade of the B. Y. U., Coach E. L. Roberts of the B. Y. U., and J. W. Robinson all of the Provo Wilson Club and all of whom made addresses. There was a most hopeful, aggressive feeling manifested by all the speakers.

Mr. Moyle discussed in a high minded manner the issues of the day. He drew attention to the prediction of Utah's senior Senator's prediction that the new tariff law would not produce sufficient revenue, however, the contrary is the case. Regarding President Wilson, he drew attention to the supreme admiration that is found everywhere for President Wilson, because of his watchful, waiting peace policy that now meets the approval of everybody. He also drew attention to the beneficent results of the administration currency bill. Taking up the state situation, he drew attention to the lack of progress found in Utah, no direct primary law, no initiative and referendum measure, no public utilities act and many other progressive measures found in other states. This stand pat condition he attributed to the rule of the local Republican party. Mr. Moyle returned on the ten o'clock train.

## Many Attend Big Carnival

The Wizard's Carnival was a load stone which helped to draw many to Salt Lake City the last week. Among those who went were:

A. L. Yates, Laureta Knudson, A. F. Galsford, Maud Harwood, Mrs. Susie Peterson, Mr. and Mrs. N. E. Darling, Freda Olson, Lydia Phillips, Mrs. Mary Winn, Mrs. M. E. Rhodes, T. W. Jones, W. M. Carson, Robert Comer, Alice Taylor, Mrs. Margaret Davis, J. H. Gardner, Dollie Cedarstrom, Mrs. J. W. Wing, Jr., Mr. and Mrs. B. N. Adams, Mrs. Jennie Webb, H. P. Hardy, Joseph Smith, Densil Smith, Edna Rolfe, Ella Woods, Ruben Davis and son, Harvey Oakley, A. J. Evans, Hamilton Gardner, Edward Cox, O. Holmstead, Ed. Southwick, Anna Stoddart, Myrl Goodwin, Mr. and Mrs. Ed. Harrison, Jay Cox, Sybil Winn, Thad Powell, Mrs. E. J. Child, Mrs. Lyman Losse, Geo. Garff, Clara Bone, Mr. and Mrs. J. E. Racker, Robert Sharp, Dell Yates, Isaac Yates, Maggie Carr, Mr. and Mrs. Jos. Woolston and daughter, Arvilla, Mrs. Wm. Gray, Mrs. James Fyffe and daughter, Eliza, Mr. and Mrs. Ray Roberts, Mr. and Mrs. Gill Sagers, Mrs. W. T. Haaler, J. E. Cotter, Geo. Hammer, Mr. and Mrs. W. W. Clark, Myrl Clark, Gordon Baker, George

Webb, Cleo Ball, Mr. and Mrs. Asa J. Clark, Mrs. Roy Lott, Wm. Crabb, Mr. and Mrs. Charles Crabb, Ira Rucker, Marvel Rhodes, Mrs. Fred Merrill, Parley Austin, Jesse G. Webb, Geo. Robinson, Mr. and Mrs. W. S. Evans and daughter, Reta, Mr. and Mrs. Nate Rockhill, Mr. and Mrs. Emmett Chipman and Mr. and Mrs. I. B. Watson.

## Christofferson Defeats Salt Lake Fireman

Lehi Wrestler Demonstrates Championship Qualities in Bout Monday Night.

The wrestling contest in Smuin's Dancing Academy, Monday evening, was well attended and was the best exhibition ever given here. It demonstrated that Lehi has, in the person of Alex Christofferson, a coming state champion.

Christofferson, though 30 pounds lighter than James M. Sullivan, kept the big fireman on the defensive at all times and threw him twice, securing the first fall in nine minutes and the second one in seven minutes. F. C. Crabbe, the Salt Lake wrestling promoter, refereed the contest and gave excellent satisfaction. He introduced Christofferson as the "champion of Southern Utah," and Sullivan as the pride of the Salt Lake Fire Department. The men sparred for position, but the Lehi man soon had his Salt Lake opponent on the mat and was on top of him most of the time. Sullivan was about to get his man once, but Christy soon wiggled out and with a bar and hammer lock ended the first round.

After ten minutes recess the men were again at it, with Sullivan again on the defensive. With a reverse body scissors Christofferson had his man pinned to the mat in two minutes less time than in the first round, and was adjudged winner of the contest.

Christofferson has wonderfully improved in the past year and it was readily predicted that with two weeks' training he could defeat Fireman Nelson, who holds the state championship. In a former bout he held Nelson for an hour and forty minutes. It is probable that a handicap contest will be arranged between Christofferson and Mike Yoke in the near future.

There were two preliminaries to the main bout. The first one was between Wallace Christofferson and James Nelson, two local fourteen-year-old lads. Young Nelson exhibited much strength and gameness and though no fall was recorded, he was easily the victor.

The principals in the second preliminary were introduced as Dell Stewart and Black Hineckley of Provo. Stewart is probably the best light-weight in the state. The bout went for fifteen minutes with no fall, but Stewart because of his superior work, as given the decision.

## Farmers' bulletins

Farmers who are interested in silos should write to the Department of Agriculture, Washington, D. C., and ask for "Farmers' Bulletin 589," on some made silos. It tells all about them.

From the same address Bulletin 597 on "Road Drags and How to Use Them," and another one, No. 599, on "Pasture and Grain Crops for Hogs," may be obtained free by simply asking for them.

All the latest in Ladies' Coats and suits now ready for your inspection at People's Co-op.

## Cedar Valley Great For Dry Farming

Cap Barnhart, who is operating Dr. H. C. Holbrook's dry farm in Cedar Valley, completed threshing his crop this week. So far as known, Mr. Barnhart holds the record for big yields in Cedar Valley. He threshed a total of 4,322 bushels of wheat and barley, 72 acres of which averaged over 35 bushels per acre, the 72 acres producing 2608 bushels.

This seventy-two acre field was given the best of scientific dry farm treatment. It was plowed a year before being planted and later was double disked twice, harrowed several times, gone over with a leveler once and had a few weeds hoed out that were missed by the disk.

On a 100-acre tract Mr. Barnhart harvested 1431 bushels of wheat. This is a little less than 15 bushels per acre. This tract is similar soil to the seventy-two acre tract, but instead of being summerfallowed, it was plowed in June, July and August, and planted in the following September, all of which proves the value of following dry farming rules strictly.

On a 30-acre tract, 283 bushels of spring barley were harvested. The barley was so short that the header got less than half of it. The balance will be harvested by turning a herd of hogs into the field. Mr. Barnhart says that the barley was very dry till after being headed out, when the rains came and caused the heads to grow almost as long as the stems, in fact, when the barley was threshed, the sacks formed a larger pile than the straw and chaff.

The above yields were, in spite of the fact that six head of horses and thirty-seven head of pigs were fed from the stacks for five weeks, between cutting and threshing time.

He also has a fine 8-acre stand of dry farm alfalfa and seven acres of corn that looks like an irrigation field. He has 200 acres ready for fall grain, which will be planted about the middle of this month.

## Sues Neighbor for \$2,355 Damages

B. Y. Mulliner, this week, filed a suit in the District court against Arthur Hawkins, claiming damages on three counts aggregating \$2,355. The principal cause grows out of Hawkins' dog having bitten Mulliner on the latter's dry farm in Cedar Valley last June. The complaint charges that Hawkins set the dog on his neighbor, but the latter strenuously denies the accusation. The other causes grow out of the alleged trespass of Hawkins' pigs and other animals destroying Mulliner's grain. The two men are neighbors in the north end of Cedar Valley. Jacob Evans is Mr. Mulliner's attorney.

## Lehi Graduates Teaching Away

Eighteen Lehi Teachers Will Act As Instructors in Schools in Other Parts of the State.

Lehi, this week, will send a good supply of teachers to other parts of the state, all of whom will bring a certain amount of glory to their home town. Following is a list and the places where they will teach. The first six are instructors in High Schools, and nearly all of the eighteen are graduates from the Lehi High School.

Abie Anderson, Sandy; Robt. Sharp, Coalville; Marian Thurman, Mount Pleasant; Earl Holmstead, American Fork; Margaret Thurman, Mt. Pleasant; Marian Thurman, Pleasant Grove; Christie Ellingson, Salt Lake City; Blanch Larson, Ophir; Ruth Robinson, Box Elder county; Velma Gibb, Box Elder county; Marie Bredesen, Indianola; Virgie Wynn, Gunnison; Julia Wilcox, Gunnison; Beula Gray, Gunnison; Junita Hammer, Maroni; Myrtle Stewart Maroni; Vera Gushman, Mendon, Cache county; Elgina Thurman, Salt Lake City.

## Lehi Men Buy Stolen Horses

PHILIP Olson of Box Elder county, was in Lehi Saturday to get some horses stolen from Oscar Nelson near Brigham City last June. One team had been sold to John W. Chilton for \$125. Philip Jones had purchased another for \$75. James Slater had traded for one of them and the fifth one had been sold to him in Springville for \$20 and another horse. The horse taken in the Springville trade was brought to Lehi and sold to Hammer Brothers. All the horses, excepting the Hammer horse, were given up readily, but as Mr. Hammer had not purchased a stolen horse, but one found to be a stolen horse, he will refuse to give his horse up. The man who stole the horses and

brought them to Lehi is Tex Miller, and is now in the penitentiary. While here he fraternized with the Grace Brothers, and when arrested in Cheyenne, Wyoming, he had one of the Grace girls with him. She is now there penniless.

## Big Pumping Plant To Double Capacity

Utah Lake Irrigation Company Will Add 120 Second Feet to its Present Capacity and Bring Many More Acres Under Cultivation.

Plans are being matured and work will be commenced in the near future on additions to the big pumping plant of the Utah Lake Irrigation company, located on Utah Lake, one mile south of Saratoga Springs. The plans will call for extending the present building sixty feet endwise and the addition of six more pumps of 20 second feet capacity each, and each of which will require 400 horsepower of electric current to operate. The new addition will give the company ten more feet of pump room than has the present plant, and will mean the addition of 120 more second feet of water in the canal, as compared with 96 feet, the capacity of the present pumps. The new improvements call for two more 40 inch wood stave pipe lines leading from the pumping plant 2300 feet up to the canal, which is 100 feet above the level of the Lake.

To accommodate this increase supply of water the canal will have to be enlarged, as its present capacity is but a little more than 100 second feet. In building the addition to the plant and enlarging the canal, men who are taking water will be given preference.

By increasing the capacity of the plant there will be a reduction in the cost of maintenance, to those using water this year, as the same crew employed at present can take care of the additional machinery and then, too, the more power consumed the cheaper it comes. For this reason the company reasons that water can be elevated to the 175 or 200 foot level at a commercial profit, as the only additional cost over the 100 foot lift would be the additional and cheaper power consumed. Water for the higher lift will probably be taken out for the irrigation year of 1916.

According to Joseph Broadbent, who has had charge of the distributing system, the farmers are well pleased with the year's results, both in Utah and Salt Lake counties. Thousands of acres of desert lands were brought under cultivation for the first time, and where the crops were gotten in early, bounteous yields are being harvested. On one tract of the Utah-Idaho Sugar company the field of oats was over 75 bushels, and this was on new land. On another tract, near the old sheep dipping corral, the land was so rich that the oats all went to straw. Mr. Broadbent thinks that the money making crop will be alfalfa, of which crop several farmers had the best yields in the county.

## ARTHUR BRADDER IN ENGLAND

In recent letters from Arthur Bradder now stationed in Gainsboro, England, it is learned that he is enjoying good health, excepting for slight trouble with his eyes. He reports that the war is causing the Elders considerable trouble in getting their mail and money for expenses. Work is closing down and many are being put on half time, which is causing much suffering, and if the war continues the suffering will be terrible.

The Elders all had to register with the American Consul for protection in case of invasion, and when his last letter was being written the government had just issued a call for 600,000 more men to go to the front.

He is enjoying his labors and desires to be remembered to his Lehi friends.

## LEHI MAN HAS IMPORTANT INVENTION

W. J. Higgs has recently perfected and patented a handle for picks, hammers, axes and other implements, which promises to make him both famous and wealthy. By means of a rod running through the handle and a flange and nut, he is able to add so much to the strength of the handle as to make it well nigh unbreakable. This is the second patent he has secured on the device. Experts pronounce it to be a wonderful improvement and predict its universal use. Several manufacturers have made liberal offers, but as yet Mr. Higgs has accepted none of them. He will take out patents in Canada and the other more important foreign countries.

Mr. Higgs returned this week from Carbon county, where he has been placing a lot of his patent ironing boards. He keeps three men in the field selling boards and one man making them.

## School Commencement ---Next Week---

We have everything the Boys and Girls need in SCHOOL DRESSES, SCHOOL CLOTHES AND SCHOOL SHOES.

A new stock of BOYS' SCHOOL SUITS, \$4.00 AND UP

just arrived. Also a fine lot of all wool B. Jr. Suits for boys at \$5.00.

## FOR THE GIRLS

We have a new line serviceable dress goods OUR SCHOOL SHOES

Are the kind that wear and please. Bring the boys and girls to our store, please them.

## People's Co-op

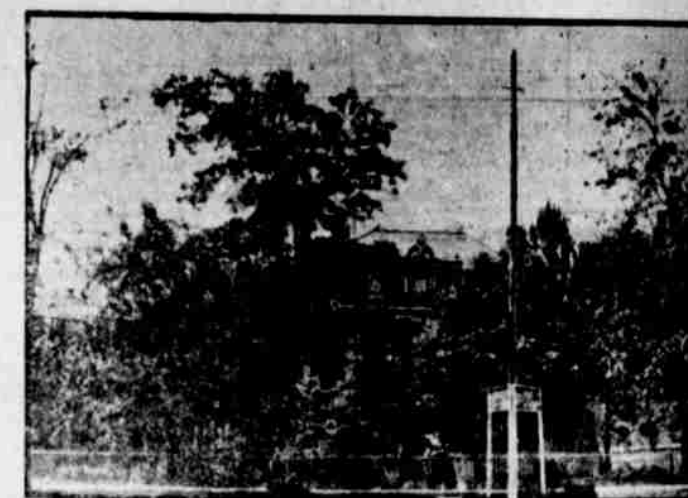

The Busy Store on State Street LEHI, UTAH.

Saratoga Springs, the Resort Beautiful on Utah Lake. Efficient Auto Service to All Points.

Auto Parties and Trade a Specialty. Meets All Travelers.

## RELTUC INN

First-Class Garage in Connection

STATE STREET, - LEHI, UTAH
